

ANNEXURE

1. Description of the ITEM: ATLANTOAL (Nuclear cleaning and decontamination Liquid for superficial radioactivity from all surfaces).

2. Detailed SPECIFICATIONS and Quantity : 1000 litres (25 litres X 40 Cans).

2.1 Specifications:

- Density : 0.9871 gm/cc
- Flash Point : None
- Viscosity : 40 to 50 Cp at 20°C
- Freezing Point : -60°C
- pH : 6 to 6.5
- Chloride : None

2.2 It should be

- Soil Degreaser
- Capable of doing nuclear decontamination from all surfaces & cloths
- Foam free Liquid
- Non flammable
- Eco friendly liquid
- Bio degradable
- Non corrosive / Non toxic
- Colourless
- Stable in storage

2.3 Material safety data sheet (MSDS) shall be provided along with the material.

2.4 A sample quantity of ~ **100 ml**, properly sealed, should be submitted along with the quotation

2.5 Supply of item should be in factory sealed 25 litres can.
